

## Grade 4 Vaping Fact Block Questions

- **PREPARE:** Print out the Fact Block cards, and cut into individual cards - 30 in the set. Print the Fact Block Questions - this will be used by the teacher to randomly call out the questions.
- **DISTRIBUTE:** Hand out one Fact Block card to each student (each card is unique).
- **CALL:** The teacher will read the questions from this clue sheet. Use the left column to keep track if you call questions in a random order.
- **MARK ANSWERS:** The students will mark their answers with a pencil (option to use plastic or foam markers so that the cards can be reused if available).
- **FACT CHECK:** After each question , give students time to select an answer. Before moving on, confirm the correct answer with the class. Errors can be erased and corrected, so that all students are able to confirm the correct answer, and continue to play the game without mistakes.
- **WINNING:** Once a predetermined pattern is made on a card (Lines, whole Card), the child with that card calls out **"I GOT THE FACTS"** (Write this on white board to remember).
